

### In the Specification

**[0013]** **Figure 3** shows another setting in which a set of aligned optical parts (only one being shown) are being bonded to a flat substrate; and

**[0014]** **Figure 4** shows an exemplary setting in which two parallel optical parts are being bonded to a substrate with 4 wedges; and

**Figure 5.** illustrates a configuration in which the present invention may be practiced, the device including two collimators and a device, wherein the device is collectively to represent one or more optical parts/devices and functions between the two collimators.
